Fahmida Mahjabin

📞 +8801983957537 | ✉ mehjabineva.ce@gmail.com | ⚬ github.com/FahmidaMahjabin | 📍 Dhaka, Bangladesh

PROJECTS

Digital Calculator

- make a digital calculator using HTML and CSS in frondEnd and javascript in backEnd.
- GitHub link: github.com/FahmidaMahjabin/Calculator

Task List

- make an application of task list where task or shopping items can be added and delete and keep the track on database
- Use bootstrap in frontend and javascript and jQuery in backend. GitHub link:github.com/FahmidaMahjabin/TaskList

ONLINE COURSES CERTIFICATES

Python for everybody(specialization)

- Four courses from beginner to advance including function,class, object oriented programming, web scrapping, regular expression, exception handling, test cases.

Data Structure and Algorithm

- **Algorithm, Part 1(coursera)** All searching algorithm, merge Sort, heap Sort and other sorting algorithm, Time and space complexity calculation
- GitHub link: github.com/FahmidaMahjabin/Algorithm
- **Master the coding interview:data Structure + Algorithm(Udemy)** implement all the data structures stack, queue, hash Table, linked list, Binary Tree and solve real problem using these data structure.
- GitHub link: github.com/FahmidaMahjabin/DataStructure
- **Full Stack Web Development With Python Javascript(Bohubrihi)** learn HTML, CSS, Bootstrap5, Javascript for frontend, Javascript and python for backend, MySQL for database management system, React and Django

EDUCATION

Bangladesh University of Engineering and technology   feb. 2015 – May 2019
Bachelor of Science in civil Engineering

- * **Coursework related to CS**: C++ programming language, Matlab, math courses 20+ credit on statistics, Numerical analysis, differentiation, laplace, fouriar series, matrix, vector, linear algebra

SKILLS

Languages : Python, JavaScript,C++, HTML,CSS, SQL (MySQL), JQuery, bootstrap5
Tools Matlab, Latex, Git and GitHub
